

Kulsum Nazim Khan

Frontend Developer

Contact No.- 9766956786

Email Id - kulsum.khan.963@gmail.com

Summary:

As a passionate and results-driven Frontend Developer, I am committed to leveraging my extensive skills in HTML5, CSS3, JavaScript, and framework such as Angular to drive company success and embrace the dynamic challenges of the IT industry. My proven track record in delivering responsive, efficient, and visually appealing web applications demonstrates my ability to exceed client expectations and solve complex problems with creative solutions. I am dedicated to continuous learning and mastering emerging technologies, ensuring my contributions not only meet technical specifications and business objectives but also lead to innovative outcomes. Collaborating closely with cross-functional teams, I aim to deliver seamless user experiences that enhance user engagement and satisfaction, showcasing my individual achievements as part of my commitment to excellence and growth in frontend development. My portfolio reflects a series of successful projects that highlight my proficiency in translating design concepts into reality, optimizing performance, and ensuring cross-browser compatibility, underscoring my dedication to making a significant impact on project outcomes and contributing effectively to the company's growth and success.

Skills:

- HTML/HTML5
- CSS/CSS3
- RWD
- Bootstrap 4/5
- SASS
- Flex
- JavaScript
- TypeScript
- Angular
- Git

Tools:

- VS Code
- Notepad++
- GitHub
- Photoshop
- Google Drive
- Vercel
- Google Fonts
- Font Awesome
- Firebase
- W3C Standards
- CodePen
- Sublime

Relevant Experience:

Globeminds Technologies | Frontend Developer

Pune | Dec 2021 – Present

- **Interface Design and Implementation:**
Designed & implemented visually aesthetic, responsive and user-friendly interfaces with 100% client satisfaction.
- **Dynamic Component Development:**
Developed dynamic components that sourced data from the backend using data binding, services, observables & API calls.
- **Dynamic Forms Development:**
Built dynamic forms for better handling of the user inputs & data using reactive Forms and custom async validators.
- **Application Optimization:**
Optimized Angular web application for maximum speed & scalability using lazy loading techniques, onPush change detection, Async Pipes, RxJS etc.
- **Application Management:**
Managed routing, authentication & authorization using router, guards, params & queryParams, interceptor & JWT.
- **DOM Styling and Directives:**
Applied runtime styling instructions to the DOM using attribute & structural directives & custom directives to generate some graphs on the basis of inputs.
- **Data Transformation:**
Implemented inbuilt & customized pipes to transform the data.
- **Application Revamp:**
Revamped existing web application from JavaScript to Angular for better optimization & interaction.
- **Communication and Issue Resolution:**
Consistent follow up with team members and client communication to achieve rapid progress, best result.

Resolved issues, bugs and maintained well-written documentation.

- **Technological Proficiency:**

Worked on various projects & a product using HTML, CSS, Bootstrap, Flex, Sass, Bootstrap, JavaScript & Angular.

Experience:

- Pawar Public School, Pune
- Vidya Pratishthan's Nanded City Public School

Projects:

<https://www.heelixprotech.com/>

Heelix Protech are committed to delivering tailored solutions that are designed to meet the unique needs of customers. They leverage their expertise, innovation, and technology to deliver cost-effective and efficient solutions that drive success for the customers.

- Designed and developed tailored web pages to meet client specifications.
- Ensuring that the site displays properly in responsive mode.
- Conducted in-person visits to client locations to comprehensively understand their requirements.
- Maintained transparent communication with clients by providing regular updates.
- Acted on client feedback by promptly updating and refining website sections.

Institute Management System

It is a web-based application that designed and developed using Angular, a powerful front-end framework. This project aimed to streamline and automate various administrative tasks and processes within an educational institute, enhancing overall efficiency and organization.

- **User-Friendly Interface:** Designed an intuitive and responsive user interface that facilitated easy navigation for both administrators and end-users.
- **User Authentication:** Implemented a secure authentication system with role-based access control to ensure data privacy and security.
- **Student Management:** Developed a comprehensive student management system that enables administrators to add, view, and update student profiles with detailed information, such as contact details, enrollment status, and academic records.
- **Session Schedules:** Designed and implemented a dynamic session scheduling module using Angular, allowing administrators to create, edit, and manage class schedules efficiently. Integrated calendar functionality to display session dates, times, and locations for both students and trainers.
- **Invoices:** Developed a robust invoicing system that generates and manages invoices for student tuition fees, course materials, and additional services. Implemented automated billing and payment reminders, reducing manual administrative tasks.
- **Events:** Designed an events management feature that allows administrators to create and promote institute events, workshops, and seminars.
- **Task and Assignment Management:** Teachers can create and assign tasks, assignments, and quizzes to students. Students can submit assignments online. Teachers can grade assignments and provide feedback.
- **Batch Creation:** Admins can create academic batches for different courses, classes, or programs. Each batch is associated with a specific academic year or semester. Batch details include start and end dates, course information, and faculty assignments.
- **Scalability:** Designed the system to accommodate the growth of the institution, whether it's an increase in the number of students, courses, or faculty members.
- **Analytics and Reporting:** Provided tools for generating various reports and analytics to help administrators make data-driven decisions.
- **Streamlined Administrative Tasks:** Automated and simplified routine administrative tasks like student enrollment, fee collection, attendance tracking, and staff management. This reduced manual paperwork and human errors.

Domain – Education

Client - Emmet Academy

Technology – Angular 16, HTML, CSS, Bootstrap-4, JavaScript, Angular material

Team Size – 15

Education:

- M.Sc.(Zoology) – 85% A+ | 2022 | Savitribai Phule Pune University
- M.Ed. – 72.06% | 2015 | Savitribai Phule Pune University
- B.Ed. – 65% | 2014 | Savitribai Phule Pune University
- B.Sc.(Microbiology) – 62.31% | 2013 | Savitribai Phule Pune University
- HSC (Science) – 56% | 2010 | Maharashtra State Board of Secondary and Higher Secondary Education, Pune
- SSC – 56.76% | 2008 | Maharashtra State Board of Secondary and Higher Secondary Education, Pune

- Lean Six Sigma Black Belt from XLNC Academy
- MS-CIT 71%
- DOEACC Course on Computer Concepts (CCC) Grade “C” (55%-64%)
- NIELIT Diploma in Computer Applications, Business Accounting and Multilingual D.T.P. Grade “B” (60%-75%).
- Voice & Accent from ELTIS.

Strengths:

- | | | | | |
|-------------------|------------|-----------------|-------------------|--------------|
| • Detail-oriented | • Learner | • Collaborative | • Active Listener | • Proactive |
| • Problem-solving | • Creative | • Adaptive | • Self-Motivated | • Optimistic |

Achievements:

- Best Student Award
- 1st Position in Inter College Street Play Competition.
